

IMPACT 90

LIFTER FOR INTENSIVE USE

THE FASTEST LIFTER ON THE MARKET

Impact 90 is the fastest lifter on the market, and designed to handle numerous lifts a day. Using the hand-held remote control unit, it is possible to operate at either full or half speed.

The elegant Impact 90 lifts, moves and handles loads weighing up to 90 kg. The lifter features built-in overload protection, safety clutch and battery indicator, and all moveable parts are shielded.

The three mast heights can be combined with a number of leg types in different lengths, including flexible legs with inside widths of 450-610 mm and 650-810 mm (Type 1 & 2). The extensive range of lifting tools is available in various sizes and materials.
